Synopsis :

About the Author Viktor Farcic is a Senior Consultant at CloudBees. He coded using a plethora of languages starting with Pascal (yes, he is old), Basic (before it got Visual prefix), ASP (before it got .Net suffix), C, C++, Perl, Python, ASP.Net, Visual Basic, C#, JavaScript, etc. He never worked with Fortran. His current favorites are Scala and JavaScript even though most of his office hours are spent with Java. His big passions are Microservices, Continuous Deployment and Test-Driven Development (TDD). He often speaks at community gatherings and conferences. Read more
